banqlanatak dot com invites you to explore Community-led Heritage Tourism at Art & Craft Villages in Bangla

Quite a few art and culture villages in West Bengal have evolved in recent years as cultural tourism destinations. About 60-150 community artists live in each of these villages. One can plan a visit to these villages at any time of the year, preferably between September and April and learn about Bengal's unique cultural heritage. Each village holds a 3-day Village Folk Mela celebrating their Art & Culture.
